Business Redesign Peer Review: Nolan Parke

As always Nolan is a great person to collaborate with on group projects. Being one of the only duo teams for this project, I think we were able to execute our idea for a business redesign pretty well. I liked working with Nolan because we shared very similar approaches and ideas for the design of our website. There were times where we would get overwhelmed, but we never took our anger out on each other. At the end of the day we would always work our problems out and try our best to help each other. As for work load, we basically went 50-50 for contribution. Whenever one of us would take on a section or task, the other would take on a section or task of equal contribution. Nolan is very cooperative and will always work with me whenever I ask him to complete something. The only thing I can critique him on is that he gets a little emotional sometimes, which gets in the way of what he's doing. I'd also appreciate it if he organized his code a little better. Overall I am always open to the opportunity of working with him and look forward to projects we can collaborate on in the future.
